CENTRAL NURSERIES

A. G. HULL & SON St. Catharines, Ontario

HERBERT RASPBERRY

What a grower in Ottawa, Ont., writes us of the Herbert Raspberry: "I have The Eaton, Ruby, King, Cuthbert, Welsh, and have planted Baumforth, Marlboro, Louden, and have no hesitation in saying that for general all-round satisfaction, Herbert has no equal, and that there is more money in an acre of Herberts than two acres of any other variety on the market." (See description on page 5.)

The Herbert is a beautiful red berry and is just as good in Quality as it looks.

The Central Nurseries.

BELIEVING that in quality of stock, good assortments, facilities for packing and shipping, we stand second to no nursery firm in Canada, we solicit a careful examination of this thirty-third Edition of our Annual Catalogue to our customers, who for many years have planted and advertised for us the excellence of Hull & Son's stock, we tender our sincere thanks and assurance that in the future the same care will be used in filling these orders satisfactorily. Our thousands of pleased customers should be a sufficient guarantee to those who favor us with their orders.

Our stock was never in better condition than at present, and consists of Fruit, Forest, Ornamental and Evergreen Trees, Shrubs, Roses, Grape Vines, Berry Plants, Hedge and Asparagus Plants, also Seed Potatoes.

Our Nurseries are regularly inspected by the proper authorities, guaranteed healthy and clean and in first-class condition. Every tree is fumigated. We are sure that our customers will appreciate our efforts to furnish Clean, Healthy Stock. Our Catalogue is our salesman ; we do not employ agents. A sample order from our Nursery will be more satisfaction to customers and to ourselves than a lot of agents' promises. We have for thirty-three years found ready sales by sending out our Annual with prices each year.

Patrons have learned that we send out good reliable Stock, and that it is to their great advantage to send their orders to the Central Nurseries. We are located between the two lakes, where the BEST FRUITS, BEST TREES and BEST SATISFACTION is produced.

Direct dealing with customers is a specialty, thus we are responsible only for stock of our own growing, graded to the highest standard, and packed to perfection.

We ask a trial order from those who have never dealt with us, believing, as we do, that we can give every satisfaction.

Send all orders to

A. G. HULL & SON, Central Nurseries
St. Catharines, Ont.

Read Carefully

CASH WITH ORDER, or if not with order, should be sent before shipment. This has always been our rule, and will be found more satisfactory, both to us and our customers. Our prices are so low you can afford to pay cash.

Your Name, Post Office, County and Province, should be distinctly written, and be *sure* that neither is omitted.

YOU RUN NO RISK, in sending remittances by P. O. order, Registered Letter or Express Money Order. Personal Cheques, please add 25c. for exchange.

ASK FOR OUR RESPONSIBILITY, we refer you to Commercial Report, Banks, or Agents of the different Express or Telegraph Offices in this city.

GUARANTEE—We warrant our stock true to name with the express understanding that should any not prove so, we will replace it with other stock ; but we will not be liable for any damage beyond this.

HOW TO SEND MONEY—Money can be sent safely either by express or post office order, bank draft, or registered letter. Always send by one of the above methods at our risk.

WHEN YOU ORDER, do not forget to sign your name. Write it plainly and give your full address, including **town, county and province,** in all corresdondence.

POSTPAID BY MAIL, means, That is all it will cost you. Each package will be done up securely, plainly directed, and the full postage paid on it by us, and **safe arrival guaranteed ;** and we will refill any order that is lost on the way, or has any of its contents injured, free of charge.

BY EXRESS OR FREIGHT, means that we will deliver the stock to express or railroad here, and the purchaser pays all the transportation charges upon receipt of goods.

Desiring to put our catalogue into the hands of as many lovers of fruits, flowers, plants, trees, etc., as possible, we will thank friends for any list of names they may send us from one or different Post Offices.

Packing done in best manner, and no charges for package or cartage to R R. Station or Express Office, *when ordered at Catalogue prices*, when our responsibility ceases. Boxes at cost.

PLANT YOUNG TREES—The nursery is the place to start young trees to grow until fit to be set out into the lawn or orchard. Too many are anxious to secure trees of large and bearing size, an error which cannot be too strongly corrected. The nursery is no place to grow bearing trees. We cannot too strongly recommend to our customers the wisdom of procuring young trees. They can be taken up more perfectly, can be more readily trained into proper shape, are more liable to live, and will be more likely to produce satisfactory and paying crops of fruit. In four years from planting, with good care, the two or three year old trees will produce more fruit than the large or bearing size, planted out at the same time. Future success depends more upon the care given the tree than its size. Again we would say, plant young, thrifty trees.

NUMBER OF TREES OR PLANTS ON AN ACRE

1 by 1	43,560	12 by 12	301
2 by 2	10,980	13 by 13	257

11 by 11	360	30 by 30	48

The prices in this Catalogue abrogate previous quotations. The prices are for quantities specified, but ten, fifty and five hundred will be supplied at ten, hundred and thousand rates respectfully. Less than five of a variety always at single rates.

Giant Himalaya

As Grown in a Michigan Experimental Grounds, and How it Behaves there. We have the Plants, but Not Fruited Here Yet.

Giant Himalaya. Rows 6 feet high and 3 feet wide.

A Horticultural Wonder

It is only after thorough investigation that we make this statement and offer it to you for sale. Those of you who have dealt with us for years will bear us out in the statement that we have never cataloged a useless variety merely for the profit to be derived from the sale of the plants. You know of a dozen or more so called Horticultural Wonders that have been sprung on the public at a big price and no value. So do we. Most of them we have investigated and when found worthless have neither catalogued them nor advised our customers to plant them. The Himalaya we were also skeptical of and when investigating it were really prejudiced against it owing to the big claims made by some parties in introducing it. However, we could not long stay in this frame of mind, for the Himalaya is a wonder and in a class by itself. The Himalaya vine looks like a blackberry vine and the fruit tastes like a blackberry, still the plant has the nature of a tree or a grape in that the wood does not die down every year as with raspberries and blackberries, but continues to bear fruit right along year after year and is as long lived as a peach or pear.

One thing that greatly impresses us is the enormous growth that the Himalaya plants make. One can almost see them grow, making from 10 to 20 feet of growth a season. A person in riding past a three year old patch of Himalaya plants would think he was looking at a grape arbor, for the plants make such a growth that they have to be trained up on wires the same as grapes are and cover the wires even more thickly than grapes. One would think this would be a disadvantage in picking the ripe fruit, but this is not the case as the berries cluster around on the outside of the vines and not among the briars.

The vitality of the plant does not all go in making up its wonderful growth by any means, for the crop of fruit that they will produce is almost beyond belief. One party claims 1045 crates per acre. This seems pretty high and we would not advise anyone planting them with the hope of equalling that record, but at the same time you can expect a crop several times larger than any other small fruit grown for they have a fruiting season of nearly two months. Commencing to ripen as the Himalaya does about the first of August and continuing until October, you are sure to get a fancy price for your fruit as there are no other berries on the market at that time.

The fruit looks like a blackberry, being of the same shape, color and size. The quality is very good. When not quite ripe it is a little tart but when fully ripe is delicious indeed. We believe that the Himalaya will thrive and produce immense crops in any soil. It is certain that cold weather will not inlure it as it has withstood the coldest weather that this country is subject to with no ill effects whatever.

As we have said before, it is not our policy to catologue and offer for sale high priced novelities, but the Himalaya cannot be classed as such, as it has already proven itself a success to such an extent that a few years will see it very largely grown throughout the entire country. In fact it is being purchased so rapidly already that the supply will not be a drop in the bucket as compared with the demand.

We haven't a large supply of plants, but stock is very fine and you will be fortunate if you get some of our Michigan grown stock to start your Himalaya patch with.

Don't delay in placing your order for a few of these plants for the pleasure you will take in picking ripe berries for your table in September. **Price 2 for 25c, 10 for $1.00.**

Raspberries

There is no fruit so desirable for canning as the raspberry, as it retains its flavor to a greater degree than any other fruit, and no fruit garden is complete without several varities of this delicious fruit.

COLUMBIAN RASPBERRY

Columbia—This variety ranks very near the top for amazing productiveness, vigor and the quality of its very large, dark red fruits. A very delicious flavor. The bush is very hardy and grows to such great size that it requires extra room. Unexcelled for market and all culinary uses. Price: 3 for 25c; 10 for 75c; 100 for $2.00. 2 years, 10 for $1.00; 100 for $2.50.

Marlboro—Red. Recommended by Ontario Experimental Union. Good. Early, 10 for 50c; 100 for $1.25; 1,000 for $10.00.

NEW—St. Regis Everbearing— Red raspberries from June until the killing frosts or autumn. Think of it — not common, ordinary fruit and producing only a few berries during that time, but as fine red raspberries as you have ever seen and good to heavy pickings from first to last. And to that; quality as good as Cuthbert, fruit so rich in sugar that it will stand shipment to the most distant markets, and the

fect that they bear the first year planted, and you have the ideal in red raspberries. The St. Regis ambodies all of these good qualities and is the only red raspberry worthy of the name "EVERBEARING." One instance is known where a party picked and shipped from two to three pickings a week for four solid months. Imagine his profits when considering that there are practically no berries on the market during a considerable portion of that time. We want all of our customers to try a dozen or two of this wonderful red raspberry. They are still a little high, but they will repay you many times over for the expenditure you make. Early till Late St. Regis. June till October. 2 for 25; 10 for $1.00.

Golden Queen—A beautiful, large, golden-yellow berry. 3 for 25c; 10 for $1.00; $2.50 per 100.

King—The earliest red raspberry. Round medium size; light crimson color, and of excellent quality. 10c each; 75c per 10; $2.00 per 100

Cuthbert—One of the best red. Price 50c per 10; $1.25 per 100; $10.00 per 1,000.

Kansas—A strong, vigorous grower, standing extreme of drought and cold and bearing immense crop early. Price 75c per 10; $2.00 per 100.

Cumberland Raspberry—The Cumberland is a new black-cap raspberry, superior to all others of its class in size, fruit and berry. The bush is extremely vigorous. Price 10c each; 3 for 25c; 75 c per 10; 100 for $2.50.

Gregg—The leading black-cap. Price 75c per 10; $2.00 per 100. Two years, 75c per 10; $2.50 per 100.

Hilborn—Hardy, vigouous and productive. Very hardy. Same price as Gregg.

Herbert—A Canadian seedling. Has been tested at N. Y. Exp. Station and by many large growers, all giving it very favorable reports. Following is from originator's description:—

"After careful comparison with all the leading varieties I can confidently say that it is very much superior to any of them. In hardiness, it easily takes first place. The cane is very strong and vigorous, leaves large and healthy and has never been affected by Anthracose, or disease of any kind. Fruit bright red, somewhat oblong, the largest of all red raspberries. Flavor, very sweet and juicy, the very best for table use. Enormously productive, will bear twice the crop of either Cuthbert or Loudon, under the same conditions. Season, 5 to 6 days before Cuthbert. Holds its size well to end of season." From notes taken at the Experimental Farm, Ottawa, Canada:—"Herbert—Very strong grower, good crop, fruit large to very large, bright to deep red, moderately firm, juicy, sprightly sub-acid, good flavored, good to very good quality; promising from all points of view. Yield from twelve plants, 50 boxes of fruit." All select plants. 2 for 25c; 10 for $1.00; $4.00 per 100.

Mr. A. E. Sherrington, Official Experimenter, Ontario—'Herbert, strong, vigorous and very hardy fruit very large, yield 592 ounces from a 20 foot row, ripe July 13th. This variety is by far the heaviest cropper of all varieties. Cuthbert same length of row 215 ounces, less than half as much." See cut of Herbert on inside front cover.

Currants

Ripe just before strawberries are gone, continuing in prime order for several weeks. There is no more useful or productive fruit than the Currant, and it is among the easiest to cultivate.

Black Victoria—A new variety of exceptional merit; the largest black currant in cultivation. Makes a neat, strong bush of unfailing productiveness. The berries are of extraordinary size and of good flavor. 2 for 25c; $1.00 per 10; $6.00 per 100.

Black Champion—Produces large crops of excellent fruits. 10c each; 75c per 10; $6.00 per 100.

Cherry—Very large berries on short clusters; a robust, fruitful sort. 75c per 10; $5.50 per 100.

Fay's Prolific—The leading market Currant. Rich, red berries, as large as those of the Cherry Currant, of better flavor, less acid, long-stemmed and easily picked. Twice as prolific as Cherry. The demand usually exceeds the supply. 10c each; 75c per 10; $5.50 per 100

Red Cross—A fine new red Currant of large size; long clusters; mild, pleasent flavor. A vigorous grower, very productive. 10c each; 75c per 10; $6.00 per 100

Wilder—A new red Currant, wiih large, fine flavored fruit of a bright, attractive red color, even when over-ripe. In some trials it has outyielded the Fay Currant; is as large with longer bunch, less acid, ripens at the same time and hangs longer. 10c each; 75c per 10; $6.00 per 100.

White Grape—Excellent for dessert use because of its mildly acid flavor and large handsome clusters of golden green or white berries. Fruitful. 10c each; 75c per 10; $5.50 per 100.

Boskoop Giant—New black. Latest European introduction. The finest black currants yet introduced. It is of extraordinary vigorous growth, with large bunches of enormous fruit. Rich and sweet, very hardy. Awarded many prizes. Price, 25c each; 5 for $1.00.

Perfection—The only small fruit ever awarded the Gold Medal of the Western New York Horticultural Society. A cross between Fay's and White Grape, retaining the valuable characteristics of both parents. Beautiful, bright red, as large or larger than Fay's, holding its size to end of bunch; easy to pick; a great bearer, superior to any other large sort; less acid and of better quality than any other large currant in cultivation. Large healthy foliage, intermediate in growth between Fay's and White Grape. Kept well cultivated and fertilized they will regularly produce heavy crops of extra size fruit of the very best quality. 25c; 5 for $1.00; $11.00 per 100.

Gooseberries

Josselyn or Red Jacket—This American seedling has been widely tested among leading older varities, and, so far is less suject to mildew of leaf and fruit than any of them. The fruit is large, smooth and of good flavor, the bush very hardy, with clean, healthy foliage, and bears fine crops of bright red fruit. The one large Gooseberry that can be planted with entire confidence. 20c each; $2.00 per 10; $10.00 per 100.

2 YEARS OLD	EACH	10	100
INDUSTRY, very popular, large, red, very desirable	$ 20	$2 00	$13 00

WINTER BANANA APPLE

Winter Banana Apple—Fine, vigorous grower, large, healthy foliage, early bearer, large, smooth and handsome, golden yellow, flesh fine grained, rich, highest quality. One of the best dessert apples. A good shipper.

Baxter—A new apple attraction considerable attention. Winter.
Ontario—Bears very young, one of the best winter apples, of a spy nature.
Alexander—Very large, round, crimson striped. October-November.
Baldwin—Very large, well known as the popular winter apple. January-March.
Ben Davis—Large, handsome, striped, good quality, iron clad. Winter. March-May.
Early Harvest—Medium size, yellow, tender, rich.
Snow (Fameuse)—Medium size, white flesh, red striped and rich. October-December.
Fall Pippin—Large greenish yellow, pleasantly acid. October-December.
Gravenstein—Large striped, finest autumn apple. September-October.
Golden Russet—Medium, roundish, highly flavored. November-April.
King of Tompkins—Very large, roundish, red and crimson; best. November.
Duchess of Olden—Striped, tender, juicy, highly flavored. August-September.
McIntosh Red—Medium, dark red, juicy, mild. November-February.
Mann—Medium to large, greenish yellow. January-April.
Northern Spy—Large, striped, tender, rich, delicious. December-April.
Tetofsky—A Russian apple; yellow, very tender, as hardy as a crab. August.
Red Astrachan—Large, red, flesh white, sub-acid. August.

Delicious—A remarkable variety introduced in the West several years ago where it has been largely planted and rapidly taking first rank both for commercial and home orchards. Tree one of the hardiest, a vigornus grower, with good foliage A regular annual bearer. 50c each.

Cox's Orange Pippin—Crisp, juicy, best in quality. Lead the market in England. October-April.

Jonathan—One of the best red varities, either for table or market. November-March.

R. I. Greening—Large, a well known, fine apple. December-February.

Roxbury Russet—Medium excellent, keep, well. February-April.

Yellow Transparent—The hardiest early apple; good quality.

Cranbury Pippin, Seek's—All good app es.

Wealthy—The hardiest and the most beautiful; red. Valuable. October-January.

Stark—Large, striped light and dark red. October-January.

Talman Sweet—Medium, yellow and rich. December-April.

Wagoner—Good size, deep red in the sun, excellent. December-May.

Pewaukee—Bright yellow, splashed with red. One of the hardiest.

St. Lawrence—Striped red. Fall; also winter St. Lawrence.

Wolf River—Very large; hardy winter.

Blenheim Orange—New and valuable. One of the best fall.

York Imperial New—Said to be very fine. Winter.

Gano—A seedling of Ben Davis; red, very hardy, fine.

Scarlet Pippin, Cayuga Red, Spitzenberg.

Hyslop Crab—Deep crimson, fine size, and very good.

Transcendent Crab—Handsome, striped and yellow; one of the best.

Martha Crab—A new crab, from seed of the Duchess of Oldenburg.

Gen. Grant Crab, Whitney Crab. Large and good.

Peaches

Niagara—A new variety, but it may be called the New Elberta. 4 to 5 feet, 25c; $2.00 per 10; $15.00 per 100; 2½ to 3½ feet, 20c each; $1.50 per 10; $12.00 per 100.

Mayflower—A new peach. It is a week earlier than the Sneed, hereto fore the earliest peach known. Absolutely red all over, even before it gets ripe enough to ship. Carries to market in fine shape and sells well; as it is the only early peach that is well colored. A strong, thrifty bearer, inclined to overbear. 25c each.

Triumph—Earliest yellow flesh peach. Freestone. A good one.

Yellow St. John—A yellow peach of fine quality. Early; one of the best.

Crawford Early—Large yellow; fine red cheek. September.

Champion—Early freestone; white flesh. September. Excellent.

Crawford Late—Rich and juicy, very fine. Last September.

Mountain Rose—Large red, juicy and of best quality.

Elberta—New; largely planted; a great peach; yellow flesh; freestone and O. K.

Fitzgerald—New, yellow flesh, excellent; one of the best; very hardy.

Crosby—Very hardy. Yellow with small pit.

Smock—Free, large and best late. **Chare's Choice, New Prolific and others.**

Standard Pear Trees

Pear trees prefer a rich, heavy soil; still on light soils made rich by the use of fertilizers. the fruit is of the best quality. Most varieties require heading back, especially when they are young. 5 to 6 feet select. Price 30c each; $2 50 per 10; $25.00 per 100. 4 to 5 feet, 25c each; $20.00 per 100.

Beurre D'Anjou—Large, handsome, keeps into mid-winter, tree a vigorous grower and good.

Bartlett—Large size and delicious. September.

Beurre Clairgeau—Very handsome and good; one of the best. November.

Clapp's Favorite—Large as Bartlett and early; very fine. August. Standard and Dwarf.

Duchess D'Angouleme—Very large and handsome. November. Standard and Dwarf.

Flemish Beauty—Very large, handsome and excellent. September.

Howel—Large, handsome, yellow and good. October.

Lawrence—Medium size, a fine winter pear. December.

Seckle—One of the most delicious pears. October.

Sheldon—Russet, highly flavored and delicious. October.

Keiffer—Yellow, large, handsome; heavy bearer. October. Great for canning.

Wilder Early—Pear is a good grower; very early, handsome pear. **Tyson**—Fine, early.

Buerre Bosc—Fruit is large to very large; yellow russet and red. 60c each.

Worden Seckle—Rapid grower; hardy, larger than Seckle. For Worden Seckle, 40c each.

Dwarf Pears

Prices of two-year-old Dwarf Pears, leading varieties, 3 to 4 feet, 25c each, $2.00 per 10.

Plums

	EACH	10	100
5 to 6 feet, first selection	$ .35	$3 00	$25 00
4 to 5 feet, second selection	30	2 50	

Monarch—Tree robust, dense foliage, an abundant bearer. Fruit very large, roundish, oval, dark purplish blue, perfect freestone. Follows Grand Duke in ripening. October.

CLIMAX—Upright grower, with strong branches and large leaves. Productive as Burbank, one week earlier and higher color; very large. Fruit large as an ordinary peach, deep dark red skin, firm; flesh yellow, sweet, rich, fruity, of fine quality. One of the earliest to ripen.

Red June—A plum ripening before Abundance. Upright growers; productive, red.

Moyer Seedling—New and valuable; fruit large, oval, dark purple, very vigorous grower and early bearer; productive; never *Black Knots* when planted among affected trees. We can cheerfully recommend the Moyer as one of the best. Try it.

Moor's Arctic—Valuable for its productiveness and hardiness. August.

Coe's Golden Drop—Large, oval, yellow; one of the best. Last of September.

Washington—Large, yellow; very productive. Last of August.

Grand Duke—Color of Bradshaw, fruit very large, of fine quality. Last of September.

Prince of Wales—Reddish purple; tree very hardy and a great bearer. September.

Niagara—Very large, reddish purple, rich and one of the best. August.

Glass Seedling—Hardy, very productive; fruit showy. October.

Reine Claune de Bevay—Large greenish plum. Excellent for canning. September.

Bradshaw—Large, dark red; flesh green, juicy, excellent. August.

German Prune—Large, dark purple. Very fine. September.

Shipper's Pride—Purple, fine; handsome and good keeper.

Lombard—Medium, violet red, juicy, pleasant, hardy productive; last of August.

Yellow Egg—Very large, egg shaped, excellent for cooking (one of the best).

Pond's Seedling—Light red, changing to violet; abundant bearer.

Imperial Gage—Fruit medium to large, oval, green, inclined to yellow, very productive.

Abundance—Hardy and productive. Fruit large, reddish yellow. August.

Burbank—The best and most profitable among growers for the market.

Geuii, York State Prune, S. Damson, Fellemburg, October Purple, etc.

Select Cherries

Prices 35c each; $3.00 per 10; $25.00 per 100.

Riena Hortense—Very fine; large; bright red; juicy and delicious. Vigorous, productive and popular. One of the best of its class.

Black Spanish—A rich, deep black; flesh dark, tender, very juicy, with a fine flavor. Bears abundantly, and makes a most excellent dish for the table. Hardy.

Black Tartarian—Sweet, very large; purplish black; half tender; flavor mild and pleasant. Tree a remarkably vigorous, erect and beautiful grower, and an immense bearer. Ripe last of June and beginning of July.

Gov. Wood—Sweet, clear, light red, tender and delicious. Tree a vigorous grower and most productive.

Napoleon Biggareau—Sweet; fruit of largest; size pale yellow with a bright red cheek; flesh very firm; juicy. Ripens in June.

Windsor—Sweet, fruit large, livercolored, fine quality. Tree hardy and prolific. A valuable late variety. July.

Reine Hortense—Large, bright red, juicy. July.

COLORADO BLUE SPUCE

American or Sweet Chestnut—In sweetness and delicacy of flavor, or as a shade tree, it is unsurpassed; it is of fine growth and one of the best for avenue planting, being handsome and symmetrical. 50 cents each; 4 to 5 feet.

Black Walnut—A well-known and valuable tree that is being planted in nearly all sections. 4 to 5 feet. Price 40c each; $3.50 per 10.

English or Madeira Nut—Handsome growing tree; large, thin-shelled, delicious nut. Price 50c each.

Walnut, Japan, Sieboldi — Perfectly hardy; rapid grower, handsome form, immense leaves; bears young and old abundantly; one of the finest ornamental trees. Nuts produced in clusters; resembles Butternut in shape and quality; smaller with smooth and thinner shell. The meat opens out free and are excellent. Worthy of extensive planting. 4 to 5 feet, 50c each; 3 for $1. 25

Ornamentals

Spruce, Kosteriana (Blue grafted)—The finest of all blue evergreens, selection from the Colorado blue of extra fine colour and compact, free growth. $1.00 per ft. in height See cut.

CHERRIES, Continued

Rockport—Large, pale amber, light red in sun, sweet, good. Tree erect; beautiful. July.

Schmidt—Immense size, deep black, flesh dark, tender, very juicy, fine flavor; productive. July.

Yellow Spanish—Sweet, large, yellow; very fiue. June.

Large Montmorency—Sour; large, red, productive, ten days earlier than Early Richmond. One of the best; last of June.

Early Richmond—Sour; very good. Bright red, melting, juicy, with a sprightly, rich, acid flavor. Exceedingly productive. June first, early.

English Morello—Large, dark red, juicy, acid, rich. August.

May Duke—Large, excellent, red, subacid, hardy. June.

Baldwin Cherry (New)—Best, red, largest, sweetest and earliest Morello. 50c each.

Nuts

Spanish Chestnut—A handsome round-headed tree, producing abundantly very large nuts that find a ready market at good prices. $25.00 has been realized at one fruiting from the nuts of a single tree. 50c each.

AUSTRIAN PINE

Ornamentals

Poplar—Carolina

Poplar, Carolina—A vigorous, healthy native tree of rapid growth, pyramidal in form, with large, glossy leaves, valuable park and street planting. Succeeds everywhere. 40c; $25.00 per 100.

Horse Chestnut (White Flowering)—The well-known European species; very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior. 5 to 7 feet, 50c.

Spruce, Hemlock—An elegant pyramidal tree with drooping branches and delicate, dark foliage. It is a beautiful lawn tree and makes a highly ornamental hedge. 25c each; 5 for $1.00.

Larch (European)—An excellent, rapid growing, pyramidal-shaped tree; drooping, slender branches; foliage light green, soft and graceful. Perfectly hardy. 40c; 3 for $1.00.

Catalpa Speiossa—One of the most rapid growers. Valuable; possessing wonderful durability. Large, heart-shaped, downy leaves, and compound pinnacles of white flowers, tinged with violet, and dotted with purple and yellow. Very ornamental and useful. 35c; 4 for $1.00.

Mountain Ash (European)—A fine, hardy tree, head dense and regular, covered from July till winter with great clusters of bright red berries. 7 to 8 feet, 50c each.

Maple Sugar or Rock—A very popular American tree, and for its stately form and the foliage is justly ranked among the very best, both for the lawe and avenue. 50c each.

Maple, Silver—A hardy, rapid growing, native tree of large size. Valuable for producing a rich shade. Excellent for street planting. 45c each. The above is 8 to 10 feet. $3.00 per 10.

Elm, American—A noble native tree of large size, wide-spreading head and graceful, drooping branches. One of the grandest park and street trees. 50c each; $3 00 per 10. Beauties

Beech (Purple Leaved)—Makes an elegant medium-sized tree for the lawn; the foliage in the spring is a deep purple, later changing to crimson and in Autumn a dull purplish green. $1.00 each; 2 for $1.50.

SPRUCE, NORWAY

Maple, Norway—A native of Europe; a large handsome tree, with broad deep, green-shining leaves; very desirable for street, park or lawn. 50c each; $4.00 per 10.

Maple (Weir's Cut-leaved Weeping)—A variety of Silver Maple, with only cut leaves and drooping limbs; one of the most beautiful of weeping trees; 7 to 9 feet. $1.00 each.

Pine, Austrian—A strong, hardy grower, fine for wind breaks; grown rapidly on light sandy soil. (See cut, page 10). 2 to 2½ feet. 30c each; 4 for $1 00.

Spruce, Norway—A lofty, elegant tree of perfect pyramidal habit, remarkably elegant and rich; as it gets age has fine, graceful and pendulous branches; it is exceedingly picturesque and beautiful; very popular, and deservedly so, and should be largely planted. One of the best evergreens for hedges.

We have nice single trees from 4 feet up. 50c to $1.00 each.

IRISH JUNIPER, with Hedge in Background

Irish Juniper—A slender, erect tree, with bright green foliage; excellent for cemetery lots and small yards (see cut), Price, 1½ to 2 feet, 50c; 3 for $1.25.

Magnolia—Grows into trees of the highest ornamental merit; their elegant habit and foliage alone would render them indispensable; but the flowers, their crowning beauty, are unrivalled in size, beauty, individual charm, and showy effect among all hardy trees or shrubs. They should be planted in a somewhat sheltered position. $1.00 to $1.50.

Magnolia Soulangeana Speciosa--Greatly prized for its beautiful white, sweet-scented flowers, which come early in June- Large plants, each $1.50, by express at purchaser's expense.

Paul's Double Scarlet, also White Thorn—Flowers bright carmine red. Superior to any other of its color. Price 50c each. 4 to 5 feet.

Fir, Balsam or American Silver—A very regular, symmetrical tree, assuming the conical form, even when young; leaves dark green above, silver beneath. 2 ft. 50c.

Honey Locust, for Hedge—50c per 10; $2.00 per 100.

Amoor River—The most beauiful of all. Strong grower with upright branches, attaining a height of 15 or 20 feet. Produces flowers in panicles 1 to 2½ inches long; blooming in June and July. Almost an evergreen. 2 feet, 25c; 3 to 4 feet, 50c.

Arbor Vitae Pyramidalis—An exceedingly beautiful, bright variety, representing the Irish Juniper in form; foliage deep green; color well retained in winter; perfectly hardy. Shonld have a place in every collection. 2 feet, 50c each; 3 for $1.25.

Arbor Vitae, American—One of the finest evergreens for hedges, 12 to 15 inch. 15c each; 10 for $1.00; 100 for $7.00. 18 to 20 inch, 20c each; $10.00 per 100. 20 to 30 inch, 25c each; $16.00 per 100,

Althea (Rose of Sharon)—One of the most showy flowering shrubs; strong, erect, growing, with large bell-shaped double flowers of striking color, borne abundantly in August and September, when most other shrubs are out of bloom. *We have pink and white, purple, white, red and pink blossoming*, all of which are imported and grafted, blossoms being double and fine in every way. One good quality of the Altheas is that they keep their foliage fresh well into autumn, when the leaves of many other shrubs are dried up or blighted by fungus. They are very hardy, easily cultivated, and will bloom until their growth is cut short by frost. Grown in standard form they make good specimens, 8 to 10 feet high, resembling small flowering trees; planted thickly they are popular for flowering hedges, as they will endure considerable pruning. This should be given in winter. Price, heavily branched, well-rooted bushes, 2½ to 4 feet, 25c each. Tree form, 50c. each

DOUBLE ROSE, DOUBLE VARIEGATED, DOUBLE PURPLE and DOUBLE RED

California Privet Hedge—This photograph of a hedge of California Privet shows how beautiful it is for hedge plants. This hedge has been planted only a few years. It remains green nearly all winter. It has a beautiful white blossom, something like a white lilac. The Privet is not so rank a grower as the locust or the spruce, and does not spread so wide or occupy so much ground as many other hedges. Therefore it is popular in city and village planted on the street or between small building lots. 10c each; 50c per 10; $4.50 per 100. Extra fine Privet plants, 2 to 3 feet, 15c each; $6.00 per 100.

CALIFORNIA PRIVET HEDGE

Deutzia, fl. pl., Pride of Rochester and others—Flower, double white, tinged with pink, racemes four or five inches long; one of our finest hardy shrubs. 25c each; 5 for $1.00.

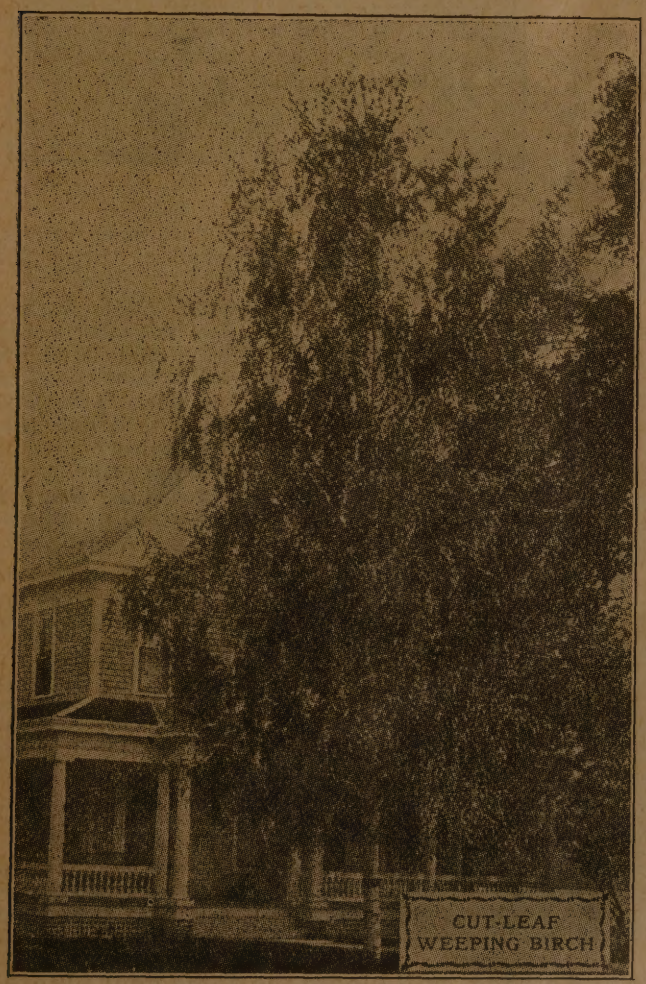
Arbor Vitae (Hovey's Golden)—A small tree, globular in form; foliage light green with a golden tinge, and very compact; dense and beautiful; hardy. Beautiful for cemetery. Price 40c; 3 for $1.00.

Barberry, Purple-leaved—Foliage and fruit of a violet color, very striking; fine for single specimen. 25c each; 5 for $1.00.

Teas' Weeping Mulberry—The most graceful and hardy weeping tree in existance. Safe and easy to transplant. Admirably adapted for ornamenting. 1 year heads, 75c; 2 years, $1.00.

Dogwood (Cornus) Americano White—A native tree of fine form and beautiful foliage, growing from 20 to 25 feet high, producing white flowers three inches in diameter, early in spring, before the leaves appear. A very desirable tree. 50c each.

DEUTZIA



The Cut-Leaved Weeping Birch—This noble tree is not only the most popular of the weeping trees, but is decidedly the best. Its tall, slender, yet vigorous growth, graceful, drooping branches, silvery white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met with a single tree. It thrives in any soil, and is very hardy, needing no protection. As single specimens on the lawn or employed as avenue trees, they are very imposing and handsome. If one ornamental tree only, plant the Cut-Leaved Weeping Birch. Price, 6 to 7 feet, 75c; 8 to 10 feet. $1.00, two for $1.75.

Mulberry

Downing's Ever-Bearing—A fine lawn or street tree is quite enough to recommend it. New American Mulberry the same price. 50c each.

Russian Mulberry—25c each.

Tulip Tree

Lirionendron Tulipifera—A magnificent native tree, with broad, glossy fiddle-shaped leaves and beautiful tulip-like flowers. Allied to the magnolias, and like them, difficult to transplant, unless of small size. 75c to $1.00.

Ornamental Shrubs

New Hardy Varieties, Lilacs—These are beautiful shrubs, indispensable in every collection, which we offer in double blossoms. In colors we have double white, double purple, double violet, pink and other colors. Price of New Hardy Lilac Bushes, imported from France, 50c each.

Lilac Old Homestead—There are no flowering plants more highly prized than this pink lilac. The Old Homestead Lilac is not claimed to be a new variety. It is a choice variety found in an old garden. Large plants. Price 30c.; tree form, 50c.

Lilac, Purple—The well-known variety, one of the best. A good grower; flowers and young wood fragrant; purple. Price, large size plants, 40c each.

Lilac, White—A very desirable contrast to the purple, those who have one should have the other. Price, large plants, 40c; tree form, 50c.

Japan Lilac—50c each.

Scarlet Japan Quince—Very attractive shrub. 25c each.

Syringa (Mock Orange)—Fine shrubs with beautiful white flowers. 30c each; 2 for 50c.

Almond—Double pink or white. 25c each.

Yucca Filamentosa (Adam's Needle)—Stems rising from four to five feet and forming at the top a pyramid of branching panicles of large, drooping creamy-white flowers; exceedingly hardy everywhere. It lasts forever, and is always neat in appearance. Price, large flowering plants, 25c each; 6 for $1.00.

LILAC

Honeysuckle (Hall's Japan)—A strong, vigorous, almost evergreen sort, with pure white flowers, changing to yellow; very fragrant, and covered with flowers from July to November. Price, 25c each; 5 for $1.00. **Red Honeysuckle** at same price.

Japan Snowball

Japan Snowball—Quite distinct from the common snowball, hardy in plant. Most people consider it the best of the snowballs. It bears an immense number of flowers, and in the autumn its foliage turns to a rich bronze color, which is unlike that of any other shrub. Foliage dark green; flowers pure white, very valuable. 40c each; 2 for 75c.

Snowball—A well-known shrub; produces its snowy white flowers in large balls and masses in June. 25c each; 5 for $1.00.

Red Snowberry—A shrub of very pretty habit. Foliage, flowers and fruit small; fruit purplish red, and hangs in clusters all winter, giving a very peculiar and attractive effect. 25c each.

Double Flowering Crab—50c.

Floribunda—Dark cinnamon or chocolate-colored flowers with projecting white stamens and pendulous habit, like Fuchsia. 40c each.

NOTE—Our Shrubs are extra large and strong, will bloom the same year planted

Hydrangea Grandiflora—Is one of the best and most handsome hardy ornamental shrubs ever grown. It blooms finely the first year, and gets better and grows larger with age. Grows three to four feet high; is perfectly hardy in all parts of the country; needs no protection in winter; blooms in July and August. It is deservedly popular and in great demand for lawn, park or cemetery, planting wherever known. 25c each; 5 for $1.00. Tree Form 3 to 4 feet, 50c each.

Weigeila (Variegated Leaved)—Deep green leaves, with a broad margin of pure white around each. Very striking and pretty; rose-colored flowers, also **Green Foliage Weigeila.** Price for strong plants, 35c each; other varieties, 25c each.

Weigelia—Shrubs of erect habit while young, but gradually spreading and drooping as they acquire age. They produce in June and July, superb, large trumpet-shaped flowers of all shades and colors from pure white to red. In borders and groups of trees they are very effective, and for margins the variegated leaved varieties are admirably suited. Fine plants, mailing size, 25c.

Weigelia Dwarf Variegated Leaved—Of dwarf habit, and possessing silver variegated leaves; flowers nearly white. 40c each.

Rosea—The flowers are large and of a deep rosy color; a very profuse bloomer. 40c each.

Candida—This is the best of all the white-flowered Weigelias; a strong, upright, erect grower; flowers pure white and produced in great profusion in June; blooms all summer. 40c each.

Anthony Waterer—A novelty of the highest merit. The plant is very dwarf and bushy, seldom exceeding a foot high, and is in constant bloom from early June until October. The flowers are of a bright crimson, outshining in color all other Spireas, borne in dense flat clusters, and these in so great abundance as to nearly hide the foliage of the plant at times. 25c; 5 for $1.00. See cut page 16

PURPLE FRINGE

Purple Fringe, or Smoke Tree—Should be in all collections. Unlike any other flowering shrubs. The blossoms resemble a cloud of smoke. Much admired and conspicuous in flower, and also pretty on account of its foliage in autumn. Price, 30c each; 4 for $1.00.

New Double Rudbeckia

Golden Glow

One of the most distinct and beautiful large growing hardy Perennials that has been introduced in years, and one that should find a place in every garden. The plant is a strong grower, of fine branching habit, bearing by the hundred, on long graceful stems, beautiful double blossoms of the brightest golden yellow, and as large as the Cactus Dahlia. Excellent for cut flowers, lasting well when cut. A plant that is easily managed, growing and blooming nicely with very little care and in any soil.

Extra Strong Plants, 25c; 5 for $1.00.

Hollyhocks, (Fine Double Varieties)—These are always in great demand, and are used for backgrounds or centres of beds, their tall spikes of beautiful flowers making them valuable for such situations. Our stock of plants is healthy and very fine, embracing all colors—crimson, buff, yellow, lemon, purple, rose, etc. Plants, two-year-olds, 25c each; per dozen, $2.25.

Boston or Japan Ivy

Ampelopsis Veitchii—An an important aid to architectural beauty it is rapidly attaining prominence, being now a feature on the finest houses. It is entirely hardy in the most exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones or brick with the greatest tenacity. For covering dead trees, gate posts, boundary walls, verandahs, etc., it has no equal, while its rapid growth and tenacious clinging qualities make it a most desirable plant for staying up terraces. In summer the foliage is a shade of green, and in fall tinted with scarlet, crimson and orange. Fine mailing, plants, each, two-year-old plants, 30c; 4 for $1.00. Three-year-old, 35c.

Chinese Matrimony Vine—This is a vigorous climber and rapid grower, branching freely and covered with bright purple star-shaped flowers, succeeded by brilliant scarlet berries almost an inch long. The contrast between the glossy dark green foliage and shining scarlet fruit is exceedingly beautiful. Thrives anywhere and in any soil. Strong two years' plants, 25c; 5 for $1.00.

Bignonia Radicans. (Trumpet Flower) — A robust woody vine; twining tightly with numerous roots along its stems. Its orange scarlet, trumped-shaped flowers cluster at the tip of the branches. Leaves light green. 20c each. Two-year, 30c each.

The Kudzu Vine—Is hardy, grows with remarkable rapidity—from 25 to 40 feet in a single season after the root is well established—and its foliage, consisting chiefly of very large leaves, is luxuriant and healthy. It is now being extensively planted in the North and South to cover arbors and verandahs. In the North the plant dies to the ground in the winter. Starting strong in spring, 35c each.

VAN HOUTTE SPIREA

Van Houtte—The grandest of all the Spireas; it is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of twenty to thirty flat, white flowers make up the raceme and these clusters are set close along the drooping stems. Perfectly hardy, and an early bloomer. (See cut). Price, 2 to 3 ft, 25c each; $2.00 per 10.

Fortunei — Compact upright growth, 4 feet high, with bluish green foliage, and, an all summer's profusion of flat clusters; bright rose. 25c each.

Prunifolia fl. pl. (Bridal Wreath)—Plum leaved foliage, tall growing. Blooms early, and is very effective with its long, graceful curving branches covered thickly their whole length with small, double white flowers. Strong three-year, 30c each.

Wistaria

A. Sipho (Dutchman's Pipe)—A magnificent, hardy vine of rapid growth, with large heart-shaped leaves and brownish flowers, resembling in shape a miniature pipe. Splendid for archways or verandahs. 50c each.

Purple Wistaria—This is one of the most popular of our hardy vines, growing very rapidly, climbing to a height of fifty feet or more. When it is in bloom it is truly magnificent. It flowers in early spring in long, drooping racemes, resembling in size and shape a bunch of grapes. 25c each. (See cut).

ANTHONY WATERS

SHRUBS
New Varieties

B. Thunbergi—Thunberg's Barberry—A shrub of marked excellence on account of its bright green foliage, which changes to brilliant colors in the fall, and its bright scarlet berries, which are very conspicuous throughout the winter. The habit is dwarf and regularly spreading. Grows well in the shade and is extensively used in hedging. Is very hardy, has never been known to winter-kill even in our extreme cold winters. 25c each; $2.00 per 10; $15.00 per 100.

Forsythia Suspensa (Golden Bell)—The golden yellow flowers of all the Forsythias are like a burst of sunshine on a gray day, flowering profusely, as they do, before any tree has shown a leaf in spring. Suspensa is of graceful, drooping growth. 2 to 3 feet, 25c.

Roses

Veilchenblau
or
"Blue Rambler"

B. THUNBERGI

New. This decided novelty gives us the spice of variety. Preliminary advertisements showing such a radical break from conventionality in color, when combined with those staple elements of growth, freedom and size, which have distinguished the Rambler species for so long, naturally strained at the buyer's conservatism. A real violet-blue Rambler Rose. The flowers are indeed blue, steely blue, and even a trifle larger than the crimson sorts. The buds show considerable red, but change quickly as they open. Our own experience and observation accept this unique variety as a welcome fixture to our lists. Strong field-grown, 75c each.

Roses

General Jacqueminot Hardy Rose —A rich velvety crimson, changing to scarlet crimson. A magnificent rose, equally beautiful in the bud state or open. This is the best known of all Hybrid Perpetual, and is without a rival in fragrance and richness of color. It is, morever, as easy of cultivation as many of the more common varieties, and perfectly hardy. 25c each; 5 for $1.00 of this variety.

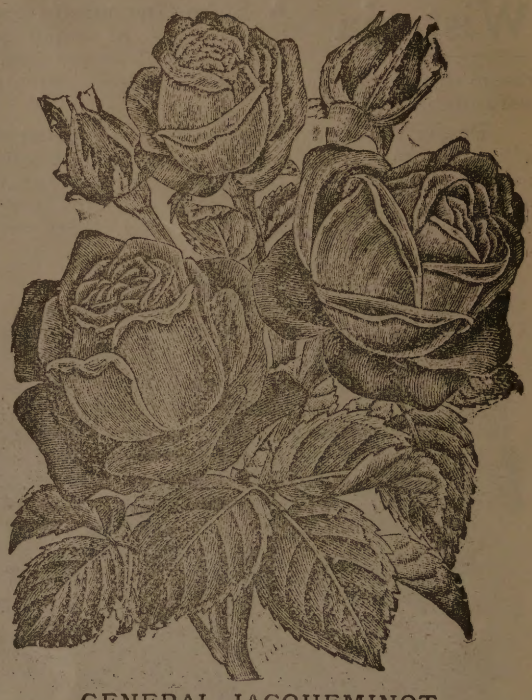
Alfred Colomb—Brilliant crimson, very large extremely fragrant; one of the best for general use. 25c each.

Baron de Bonstitten—Rich, velvety maroon; a splendid sort. 25c each.

Coquette des Blanches—White, shaded with pink, full and very pretty, one of the hardiest. 25c each.

Champion—Large double, rich, deep rosy pink, very fragrant, a vigorous grower; free bloomer. 25c each.

Paul Neyron—We ask special attention to this grand rose. The flowers are immense, probably the largest of any rose; bright shining pink; clear and beautiful, very double and full; finely scented; blooms the first season and all summer. No collection is complete without this magnificient variety. 25c each; 5 for $1.00.



GENERAL JACQUEMINOT

Perle de Jardins (Queen of the Garden)—This magnificent rose still retains its position as the finest rose of its color; the color varies, canary to golden yellow. 30c each; 4 for $1.00.

Madame Plantier—The iron-clad white cemetery rose. This is an old stand-by, and is unequalled where a hardy white rose is needed. It bears thousands of beautiful snowy-white fragrant roses It is hardy as an oak. 25c each; 5 for $1.00.

TREE ROSE IN OUR LAWN

Tree Rose — The tree roses are grafted on hardy rose stalks four to five feet high, are tree shape, and when in full bloom are objects of beauty, making handsome plants for the lawn or rose border. In this shape we offer only the Hybrid Perpetual or hardy class. We have them in white, different shades of pink, red and crimson. Fine, strong trees that will bloom nicely the first year. See photo of Rose Tree planted in our lawn two years. These can only be sent by express or freight. $1.00; 2 for $1.75.

M. P. Wilder — A beautiful well-formed rose, cherry crimson, very fragrant, hardy, free bloom, one of the best. 25c each.

Mme. Cabriel Luizet—For loveliness in color, fragrance, and freedom of blossoming qualities this rose has no equal to-day; equally good as a bedding rose outdoors. Pink, distinct, very large, cup-shaped; somewhat fragrant. 30c each.

Madame Charles Wood, h. p.—Reddish crimson, large, very free flowering. 25c each.

John Hopper, h.p—Bright rose with carmine centre; large and full. 25c.

CRIMSON RAMBLER

Fisher Holmes, h. p.—Like General Jacqueminot, but the flowers are fuller and darker. 25c each.

Magna Charta—A splendid sort, bright clear pink, flushed with crimson; very sweet flowers, extra large, fine form, double and full; a free bloomer. 25c each.

Madame Victor Verdier—Brilliant carmine crimson; large, full, beautiful shape; a free bloomer and very fragrant. 25c each.

Mrs. John Laing, h. p.—Delicate pink. fragrant; a continuous bloomer. 25c each.

Red, White and Pink Mosses—Magnificent moss rose; and perfectly double, very mossy. 25c each.

American Beauty — The variety has been rightly described as an ever-blooming Hybrid Perpetual; flowers are very large, of beautiful form and very double; color a deep rich rose; fragrance is delightful. 30c each.

Margaret Dickson—This rose is almost a pure white in color; strong in growth and quite free in flowering. The finest hybrid rose of recent years. No collection is complete without this variety. 25c each.

La France—Delicate silvery rose, shaded with cerise pink, often silver pink, with peach shading; very large, very double and of superb form; sweetest and most useful of all roses; it ranks first. 30c each.

Caroline Marneisse (Creamy White)—As a bedding rose this variety has no superior; it is literally a continuous bloomer. In our nursery the past season, at times when other roses showed only scattering blossoms, or none at all, the rows of Carolines Marneisse were a perfect mass of flowers. There was not a week from the latter part of May till the middle of October that large quantities of blossoms could not have been picked from these plants. 30c each; 50c for 2.

Prairie Queen—Bright rose, very large; free bloomer, extra fine climbing. 25c each; 10 for $2.00.

Baltimore Belle—Pale bluish; large, very double. One of the best climbing roses. 25c each; 10 for $2.00.

Dorothy Perkins—A splendid new shell-pink climbing rose. It attracted much attention at the Pan-American Exposition, where a bed of fourteen month' old plants produced a show of bloom unequalled by any other variety unless it was the famous Crimson Rambler. The flowers are borne in clusters of thirty or forty, and sometimes even fifty or sixty. The blooms are large for a rose of this class, very double, sweetly scented, and of a beautiful shell-pink; is also entirely hardy. 25c each; 10 for $2.00.

The Crimson Rambler

This grand rose improves upon acquaintance. The better it becomes known, the more popular it becomes.

Its growth—It is of rapid, vigorous growth. The flowers are produced in trusses, pyramidal in shape, fairly covering the plant from the ground to the top, so that it is **one mass of glowing crimson.** The color is surperb, and remains strong and vivid to the end. The profusion of bloom is marvellous, over three hundred blooms being counted on one shoot. It is especially a **Garden Rose,** but makes a magnificent specimen in a pot or tub. We offer fine field-grown plants of this grand climbing rose, which, if planted this spring ought to give a nice crop of bloom this season. Fine plants by mail, postpaid, 25c each; $2.00 per 10; 3 feet, extra fine, by express, 50c each.

Pink Rambler—Same as crimson, but pink. 25c each; $2.50 per 10.

Yellow Rambler, White Rambler. 25c each.

BABY RAMBLER

Crimson, Pink or White. 30c each.

Baby Rambler—This is one of the most practical, all-round Roses ever put on the market. Its color is as richly crimson, and its clusters are as large as in the ever popular Old Crimson Rambler, from which it is derived. But its habits are widely different from the parent's. "Baby Rambler" is strictly a bush and pot Rose; and, as such, can be grown in the house. It is spendthrift and tireless in its blooming, always showing a brilliant crown of crimson against its glossy green leaves, whether as a bush in the summer garden, or as a winter decoration in the house. Two-year-old, 30c each. Strong, dormant field-grown plants.

Ulric Brunner—Brilliant cherry-red; large and full; very vigorous. One of the most satisfactory. 30c each.

Perrie Notting, h. p.—Deep maroon; large globular form, superb. 25c each.

Princess Camille de Rohan, h. p.—Deep, velvety crimson, sometimes almost black. 25c each.

Frau Karl Druschki (Snow Queen)—A new, exquisite, absolutely pure white rose, of German origin. It is perfectly hardy everywhere, vigorous grower, throwing up enormous shoots, which are covered with snow-white blossoms. 30c each. Strong two-year, field grown.

General McArthur—In all the rose family we know nothing that can compare with this in dazzling color, fragrance of flower or profusion of bloom. General McArthur is a Hybrid Tree Rose, as fragrant as a rose can be, has good sized flowers and blooms continuously. We do not hesitate to recommend it to our customers as the nearest approach to a perfect red rose. The form of flower and bud is simply superb, and it lasts as long when cut as any rose we have ever seen. The bud when first opening is the brightest crimson scarlet, and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through, and gives fine stems for cutting. 50c each.

Gruss an Teplitz. Hybrid Tree, new—Among the many sorts of recent introduction, has shown itself one of the very best. Very vigorous, rugged, succeeding under the most ordinary conditions. "The reddest of all red roses"—richest scarlet, shading to a velvety crimson as the flowers mature; medium size, very double, very fragrant. A free, strong grower, and surpassingly profuse in bloom. Foliage very handsome, all the younger growth being of a bronzy plum-color. We recommend this rose in every respect. The most constant bloomer that we have; perfectly hardy, vigorous, very valuable. Color usually good. 50c each.

Lyon (New)—Shrimp pink edges, petals coral red, shaded with chrome yellow in centre, hardy and vigorous, select. 50c each.

White Killarney—The purest white which is known among roses. There exists no better rose for forcing. 50c each. Three, your choice, second selection, by mail, $1.00.

SNAP SHOT OF BABY RAMBLERS AT THE CENTRAL

Soleil d'or—Large, full; golden yellow or reddish gold, shaded gold-orange and nasturtium red, perfumed, very hardy and free blooming. 50c each.

Dean Hole—Large, fine form, silvery carmine shaded salmon, floriferous, of great excellence and useful. 50c each.

Liberty, His Majesty, Md. Testaut, Lady Ashtown, John J. L. Monk, Peasli de Blanches, Captain Hayword, Hugh Dickson.

At 30c each, 4 for $1.00

New Snowball Hydrangea Alba

Finest of all Flowering Shrubs

This wonderful NEW HARDY HYDRANGEA bids fair to become a most popular hardy garden shrub just as soon as better known and enough stock can be propagated to supply the demand. It is perfectly hardy, needing no protection, and will thrive in almost any location, even where quite shady, although it delights in a rich mellow soil. It attains a size of three to four feet high and spreads as it develops, although it can be trimmed back quite to the ground each year if desired; when so treated it sends up a number of vigorous stems, each crowned with an enormous head of bloom. As early as June 20th the flower heads are fully developed, which is a happy happening, as few shrubs are in blossom at this time. For a month or more the blooms remain pure white, then turn very slowly to a light green tint, and as the season advances assuming deeper green shades, finally toning down to the color of the foliage. The whole expression of the plant is refined and elegant, entirely free from the coarseness of some of the other Hydrangeas. Plant it either as a specimen to develop individually, in detached beds or groups, or in groups as the foreground for other and taller shrubs, in fact, no oth r shrub lends itself to so many attractive uses. Price, dormant field grown plants, strong 2-yr-old grade, 50c; $4.50 per 10. Strong 1-yr-old grade, 35c; $3.00 per 10.

NOTE—All the above quoted plants will bloom the first season after planting.

JACKMANII CLEMATIS HENRYI CLEMATIS

Clematis

The Clematis should have good rich ground and if partially shaded so much the better. They are entirely hardy, but a light covering of leaves or straw during winter is desirable until fully established. Our Clematis are all on their own roots. We send fine, strong, well rooted plants, certain to grow and bloom.

Clematis Paniculata—New Sweet Scented Japan Clematis—Of a deep, clear, glossy green. Flowers pure white, sometimes slightly tinged with cream; about three-quarters of an inch in diameter; star shaped and of most pleasing fragrance. Most fragrant of the Clematis family. We know of no climbing plant which possesses hardihood, with free flowering qualities combined, to compare with this. 30c each; 2 for 50c; 10 for $2.00.

Jackmanii — The pioneer of the large flowered, improved clematis, and with very few equals, and no superiors. Vigorous, perpetual, very profuse and constant. Flowers large, in such masses as to form a cloud of intense violet purple, having the appearance of velvet and remarkably rich. Much of the popularity of the Clematis is due to this superb variety. 40c; $4.00 per 10.

Madame Edouard Andre (Red)—The nearest approach to a bright red yet offered. Of the Jackmanii type, with large six-petaled flowers of a distinct, pleasing shade of carmine, borne in great profusion. Price, 40c each.

Henryi—One of the best white Clematis, flowers successional during summer and early autumn. Vigorous grower; free bloomer. Flowers large and pure white. This variety and the two above form a fine trio. 40c each; 3 for $1.00.

Hardy Flowering Plants and Grasses

Eulalias—These handsome grasses are perfectly hardy, and are among the most beautiful objects that can be grown in the garden. As border and lawn plants these grasses have no superiors. 25c each.

Eulala Japonica Zebrina, or Zebra Grass—Habit and plume is like above, but it is very dark, deep green. 25c each.

Eulala Japonica Gracillima—This is a newly introduced variety, totally distinct in appearance from either of the above. Three for 50c.

PANICULATA

Selected Seed Potatoes

New Potato EUREKA — An extra early variety, producing fine large tubers as large or larger than any other potato in cultivation. The vines are dwarf and compact in growth, with healthy dark green foliage. The vines die down as soon as the tubers are ripened and never make any second growth, thus ensuring smooth, regular tubers of the finest market type, superb quality, entirely free from any irregularities or knobs. It is an excellent keeper for so early a potato. The firm, white flesh is of fine flavor when cooked, entirely free from any hard core or black specks. Twenty-four fine potatoes from one tuber, four bushels from eleven potatoes; few eyes. The skin is very smooth and of a pure snowy whiteness.

New Delaware—We now offer this valuable new variety for sale. What we mostly need is not an extra early potato, but one which will give us good crops of fine white tubers, which are just what the people want. **The New Delaware** roots deep, grows strong, producing a good-sized light green top which bears a large crop of white tubers of the very best quality.

Sir Walter Raleigh (Best Main Crop Potato)—A medium late potato. The color of the skin is the same, but the flesh is a little white and tubers larger; in fact, there are no small ones. Vines grow strong and upright. Two year's trial pleases us. We can cheerfully recommend them to our customers.

Early Ohio—One of the Standard Early varieties, good size, round, smooth and good cooker. Valuable for market.

Improved Early Michigan—Every one wishing to plant a variety that will prove as any sort on the market, should give Improved Early Michigan a trial. White flesh and O.K.

POTATOES 50c PER PECK; $1.50 PER BUSHEL

EXTRA EARLY SIX WEEKS POTATO

A valuable early variety for market. Gardeners and all others who grow potatoes for home or market will prize this potato ahead of all others on account of its extreme earliness, good table qualities, fine size and shape, great productiveness and splendid keeping properties. The potatoes cook fine, and dry from the time they are large enough until late spring. Size is medium, skin light flesh color; shape, see cut. They are perfect beauties, heavy yielders, and a sure cropper. This potato, strange to relate, keeps sound, solid, and fresh late into the spring, equal to any potato that we ever saw.

The earliest potato on record. Do you want to be the first in market with potatoes? You know the price is always higher for the early crop. Others may equal it in size, quality or productiveness, but in earliness six weeks market is unapproachable. Supply limited. 35c per pound; 75c per peck.

Club Orders

Unite with your neighbors, make up a Club Order of $20.00 or $25.00 or more, and you will find it means a big saving in charges to you. We pack each order in a separate parcel and make one shipment to one address. Try it, get up a Club Order and we will show you how nicely it works.

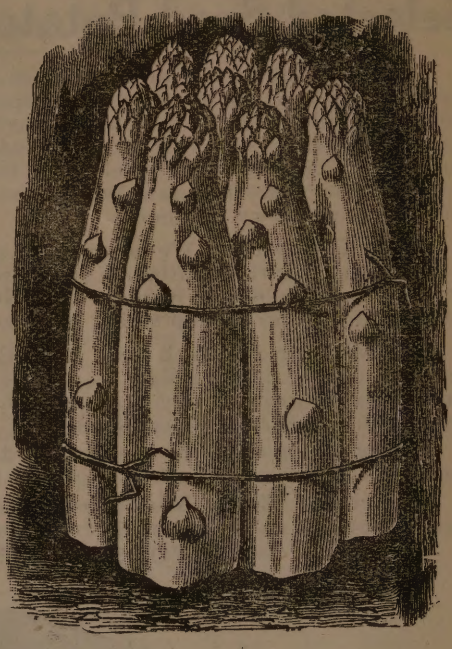
Asparagus

Columbian Mammoth White—It produces shoots that are white and remain so as long as fit for use. 50 for 60c; 100 for $1.00.

Conover's Collosal—The old standard market variety, everywhere planted. $1.00 per 100; $6.00 per 1,000.

The Palmetto—This new Asparagus is grown extensively by planters for Toronto and Montreal markets, where it sells for top prices on account of its great size and beautiful appearance. Price, strong plants, $1.00 for 100; $6.00 per 1,000.

RAFFIA—Excellent for tying asparagus and other vegetables. Also used for budding. 25c per pound; 10 pounds, $2.00.



Rhubarb Root

Linnaeus or Strawberry—Large, early, best. Each, 15c; 2 for 25c; $1.00 per 10; $7.00 per 100.

Rhode Island Reds

ROSE COMBS

This is a comparatively new fowl that is rapidly pushing its way to the front. They are considered the hardiest of all breeds, being less liable to colds and roup than any other breeds. **The males weigh from 7 1-2 to 8 1-2 pounds and females from 5 to 6 1-2 pounds.** They make rapid growth and are desirable at any age for the table. The pullets mature very early, and lay in the fall and early winter when eggs are high. They are very beautiful as well as useful, and are considered an ideal all around fowl. They are prolific layers of a beautiful, large brown egg. We unhesitatingly recommend them to the general farmer who wants a hardy fowl. Our Rhode Island Reds are especially fine, being carefully bred for years, and our best eggs this year are fertilized with cockerel from settings received from those who have won first prize at the shows.

Eggs from Selected Coop, $1.50 per 13; 2nd Coop, $1.00 per 13.

Cockerels for Sale from $1.00 up. Also Plymouth Rock Eggs from Choice Coop, same price.

PIN ADDITIONAL ORDERS HERE

HOW TO ORDER We employ no agents. This catalogue is our only salesman. Fill out the Order Sheet with the items you want to buy, enclosing Postal or Express Money Order, or Bank Draft on St. Catharines, and mail to us in enclosed envelope. By this method you save half the money you would have to pay agents for trees. We have filled orders in this way for thirty-three years, and are well-known through the country. You can learn of our responsibility through any commercial agency, bank or banker, or of the postmaster of St. Catharines. Our Regular Spring Shipping Season opens from April first. State positively how we are to ship, whether by Freight, Express or Mail. If by Freight, or Express, give name of R. R. Station and your post office.

BE PLAIN.—Correspondents should give name and address in full and distinctly in every communication. The signature and Province are of the greatest importance, yet the former is frequently illegibly written and the latter omitted, thus rendering the letter "blind." The express office or depot to which the goods are to be sent should be given, and it is desired that the express or railway line should be named as well.

When buying from us you get good, healthy, clean, well-grown stock, such as we would plant ourselves. We handle our stock in such a manner that we seldom hear a complaint of it not growing.

At the prices quoted in this Catalogue, purchasers may select 5 of a variety at 10 rates, 50 at 100 rates, and 500 at 1,000 rates.

Orders for one tree of a kind, whether the order amounts to six, sixteen or any number, always at single rates, unless by special arrangement for a quantity, as it costs just as much to run after one tree as a half a dozen.

Fumigation.—Under the law of 1899 all Nursery stock in Canada must be fumigated. Although this adds to the cost, we have given it hearty support, beleiving as we do, that it is a wise precaution. Every tree is carefully examined before digging, and fumigated before packing. We are sure our patrons will appreciate our efforts to furnish clear, healthy stock.

Kindly furnish us with your orders early while our stock is well assorted. It will forward our work in the busy season. We are always anxious to get our orders off our hands in good time.

Small orders will go by Express as cheaply as by freight. Plants and trees are now taken by Express companies at a reduction of twenty per cent. from regular rates.

Yours faithfully,

A. G. HULL & SON

Directions for Planting

TO OUR CUSTOMERS:—

Most of the failures experienced in the planting of trees, shrubs, etc., result from want of knowledge of the conditions necessary to success, or from a careless disregard for them. Many a nurseryman is blamed for what might have been avoided had the planter consulted the plain wants and requirements of the stock, and given it at least a fair chance to grow and do well. We are interested in the success of every article we send out. We take the greatest pains to place every item in the hands of our customers in the best possible condition, and in order to furnish some precautions which our experience suggests and to urge a more cautious and considerate culture, we give a few hints on such points as are more essential.

PREPARATION OF THE SOIL—For fruit trees the soil should be dry and in good condition, thoroughly plowed and so prepared as to be good for the production of a good crop of corn or wheat. If naturally moist, it should be thoroughly drained, and if exhausted by cropping, carefully dressed as trees will not thrive on weak soils, or on such as are saturated with stagnant moisture.

PREPARATION OF THE TREES—DO NOT LET THEM GET DRY—If not ready to plant when the stock arrives, see that it is IMMEDIATELY **taken** care of. The best way is to "heel it in" by packing the roots in a trench and covering them thoroughly with mellow earth well packed about them.

We use the greatest care in digging and packing, but the loss of some small roots and fibres is unavoidable, and to preserve the natural balance between roots and tops, a proper and judicious pruning is in most cases absolutely necessary. All broken or bruised roots should be cut off with a sharp knife, as a smooth cut heals much sooner than a bruise. The tops of fruit trees should be cut back to the extent of one-half the growth of the previous season, taking care to prune in such a manner as to secure a head properly shaped and sufficiently open to the sun and air. Evergreens and other Ornamental Trees the beauty of which depends on preserving their natural form, should be pruned but little. Thence great pains should be taken in planting and caring for them.

PLANTING—Before planting cut trees and shrubs back vigorously and trim off injured roots. Mud the roots well in thich mud and plant before it has time to dry. **Never expose roots or tops to sun or wind before planting.** Holes for trees should be large and deep unless the soil is wet and heavy, when they should be set the usual depth.

How to Set a Tree or Shrub—Mind this rule and you will succeed. Sift some fine, rich dirt among the roots, just enough to cover so the boot will not injure them, then with the **heel** and all the strength and weight you can command **stamp the earth down until it is solid,** then fill in a little more dirt and repeat the stamping until the hole is nearly full; then fill the rest of the hole with loose dirt and leave it with the soil pitching towards the tree in every direction. **If properly set you cannot pull it up.** Do not try to pull all the earth back, but throw some away. The same general rules apply to everything from a strawberry to a shade tree.

First, do not Expose them. Second. mud the roots; it is better than pouring on water. Third, set firmly so that you cannot pull up the tree or plant without spoiling it. Fourth, leave the ground loose on top and slanting towards the tree or plant.

If Trees and Plants are ordered from Central Nurseries they will grow.

Our Guarantee While we exercise the greatest care to have our stock genuine and reliable, we agree to replace, on proper proof, all that may prove untrue to name as labelled, and it is hereby mutually agreed that our replacing it, or offer to replace it, shall operate as a liquidation of all damages.
